

Multiplatform 'TauCeti Unknown Origin' Is The Latest Groundbreaking FPS By BadFly Interactive

San Francisco, CA, August 4th 2017: Indie game developer and publisher BadFly Interactive is proud to announce **TauCeti Unknown Origin**, their new action-packed coop sci-fi FPS currently in development for PS4, XBOX ONE, PC, PC-VR and mobile platforms. **TauCeti Unknown Origin** offers an original and epic gameplay experience set in an exciting and exotic space world.

Game Trailer: <https://youtu.be/lpsAILNvRs4>

TauCeti Unknown Origin features a protagonist hero (you) living your worst nightmare. Your space ship, the famed ESS Meridian (known from Dead effect 2) has gone haywire and crashed; luckily you managed to use the only working escape pod, which has sent you straight to TauCeti f, a strange and unknown land ready to be explored ...

TauCeti Unknown Origin is a beautiful, but dangerous place. It features a thick tropical rainforest, deep canyons, a great rover and ruins of stone buildings. Temples of ancient civilizations might offer shelter, but also hides danger. The natives are something to experience! Throughout the environment, you may discover shattered parts from your broken vessel.

KEY FEATURES

- Cooperative game for up to 8 players
- Solo, group and raid content
- Class-based game
- PvE and PvP game modes

GAME PROMOTER

- A strong story, following up of our previous games
- Open World game with a lot of opportunities (to explore, harvest, craft, upgrade, build base)
