Dead Effect 2 takes you right back to the ESS Meridian where the original plot ended in the first installment of the game. Something is brewing deep within the recesses of the spaceship. Something a lot more dangerous than a horde of undead ... and whatever it is, it is threatening to enslave your mind and bend it to its will. To survive you must train, develop your character, collect and upgrade countless weapons, gear and body implants and regain control of the ship before resources and strength runs out. Are you soldier enough for the task?
