## **‘Spacetours VR’ Exclusively Available For HTC-Vive And Oculus Rift Challenges You To Boldly Go Where No Man Has Gone Out-Of-This-World VR Gaming Experience!**

San Francisco, CA, May 12<sup>th</sup> 2017: Indie developer Vibrant Visuals is proud to announce that **Spacetours VR** (EP1 The Solar System) has officially launched on the Oculus home. Until now, the title was exclusively available via STEAM™ and Viveport™ offering an out-of-this-world extraterrestrial VR experience for gamers and casual users.

Official trailer: <https://www.youtube.com/watch?v=aVdyThHp5bY>

**Spacetours VR** allows you to discover space like never before! Driven by ambience and visual beauty you travel in style in a non-linear gameplay environment using state-of-the-art streaming techniques. Designed using 100s of NASA and ESA images to achieve the maximum realism and detail, the game offers travels to the orbit of the eight planets of the Solar System, where you glide chasing the sun on your personal platform.

As companions during your stay, the mechanical pioneers of the respective planets have been fully restored and relaunched. Earth orbit for example offers the first man-made space station, known in history books as the "International Space Station", equipped with several vista spots conveniently accessible from your base platform.

### **KEY FEATURES**

- Visit the eight planets of the Solar System in this inspiring VR experience
- Highly suitable for players new to VR
- Developed for VR with intuitive motion-controls in separate formats for HTC Vive and Oculus Rift
- Photorealistic planets created from hundreds of NASA images brought to life with Epic’s Unreal Engine®

# GAME PROMOTER

- Non-linear Gameplay – Choose your travel destination and the events you want to see
- State-of-the-art level streaming technique with no loading screens
